# PROJECT SUMMARY

Care4Elders aims to transform dementia care by introducing innovative, digital, and person-centered approaches while addressing health inequalities and reducing stigma.

The project focuses on upskilling elderly care professionals, promoting early detection of dementia, and raising public awareness to prioritize dementia as a public health challenge.

The project will:

1. Develop a person-centered care model
2. Deliver specialized training programs
3. Implement an awareness campaign to improve stigma

**Co-funded by  
the European Union**

# EU VALIDATION WORKSHOP

The Care4Elders EU Validation Workshop will bring together key European stakeholders to validate the main findings from Work Package 2 (WP2): Desk and Field Research on Elderly Care Practices.

The session will focus on confirming the relevance and completeness of the research outcomes, gathering stakeholder insights, and co-developing recommendations to guide the next project phases, including the creation of the Care4Elders Handbook.

**Co-funded by  
the European Union**

# AGENDA

<b>Time (CET)</b>	<b>Session</b>
<b>13:00 – 13:15</b>	Welcome and Introduction
<b>13:15 – 13:45</b>	Presentation of WP2 Key Findings
<b>13:45 – 14:00</b>	Break
<b>14:00 – 14:30</b>	Parallel Cluster Discussions
<b>14:30 – 14:50</b>	Plenary Feedback Session
<b>14:50 – 15:20</b>	Brainstorming: Compiling the Care4Elders Handbook
<b>15:20 – 15:30</b>	Closing Remarks and Next Steps
