

FORESEE

social services

More attractive social services
through social dialogue

With financial support from the European Union

FORESEE is a two-year project co-financed by the European Commission (DG Employment) that brings together 13 partners from 9 EU countries.

The project aims to further build capacities of social partners in social services at national and EU level and by doing so, help the sector better manage current and future challenges, as its attractiveness.

Objectives:

Strengthen European social dialogue and develop national level social dialogue in social services.

Address Covid-19 impact & consequences for social services.

Develop tailored practices for more attractiveness.
